JOHNSON'S TO OFFER COVENANT CHANGES

California Senator Would Protect State From The Yellow Peril

INSISTS ON HOME RULE

Says California's Policy Can't Be Fixed By Lot Of Foreign Diplomats

WASHINGTON, June 4.—Amendcents to the league of nation covenant to safeguard America's and particularly California's interests will be offered by Senator Hiram Johnson, he announced today.

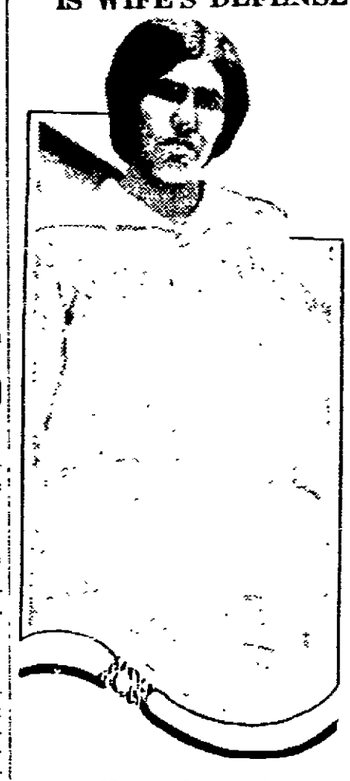

Johnson will seek to amend the league covenant so that Japan cannot put the California Alien land law immigration of Japanese or California school legislation, relating to Orientals before the league.

"These questions belong to the people of California," said Johnson. "They and they alone have the right to settle them. If the league becomes a fact, Japan will seize an early opportunity to bring the land law and immigration controversies before it.

"And despite what league advocates say to the contrary the league will assume jurisdiction and will pass upon these purely domestic questions if they are raised. This means that matter which California has a clear right to settle for itself, according to its own welfare ,will be settled by foreign diplomats, whose governments have secret treaties with each other.

'HIS LIFE OR MINE," IS WIFE'S DEFENSE

Mrs. Jessie Knight.

"It was his life or mine, and I simply beat him to it," was the calm statement made by Mrs. Jessie Knight when she walked into the office of the sheriff and gave herself up. Mrs. Knight claims that her husband, an Indian, had threatened to kill her, burn the house down and take the two children to Mexico and that she killed him in self-defense by sending a charge of No. 12 buckshot from a pump gun into his heart. The shooting took place immediately after dinner on the Knight farm ten miles west of Hot Springs, in Bain county, Arkansas.

TEMPLE MAKES PUBLIC LOFTY PURPOSES IN MAKING RACE

Following his announcement earlier in the week that he would be a candidate before the August primary for the Republican nomination for mayor, R. M. Temple has prepared a platform on which he bases his appeal for support at the primary and, if nominated, at the ensuing November election.

Considerable interest attaches to Mr. Temple's proposal that if he is elected mayor, he will call together an "advisory committee," composed of representatives from the various civic and religious organizations of the city. His platform in full is as follows:

In announcing myself as a candidate for mayor of Coshocton I did not take into consideration the financial emoluments connected with the office. My main consideration was the opportunity it would give me to render a service to the city in which I have lived for thirty years and which I have seen grow from a village of three thousand to twelve thousand people. The principles that will govern me, if nominated and elected to the office of mayor, will be found in Matthew, 7th chapter and 12th verse and known as the Golden Rule. Look it up in your Bible. It will do you good to read it.

Of course, it goes without saying, that all the laws of the city and the state, so far as they relate to municipal affairs, will be enforced by me.

Strict economy, but not false economy, will be required of all departments in the expenditures of the money appropriated by council for the conduct of the city government so that the city may receive full value for every dollar expended.

The Water Works, Hospital, Cemeteries and all other public property will receive my personal attention to the end that they may perform their several functions in the most efficient manner possible.

City employes will be selected because of their special fitness for the duties they will be required to perform. I am in favor of paying such employes a fair living wage, corresponding to that paid for the same kind of labor by other employers of labor in the city.

The police and fire departments will be required to perform their duties in a thoroly prompt and efficient manner and to give the city the protection to which it is justly entitled to from these public servants.

I am a thoro believer in public sanitation; especially of the streets and alleys and will see to it that these public highways are kept as clean as the funds available will make it possible.

In order that all classes of our citizens may have some influence in the

Says Husband Choked Her On Memorial Day

Jemima Taylor has commenced suit in proate court against Samuel Taylor, asking divorce and restoration to her maiden name, Jemima Clough. They were married September 30, 1912, and have no children. The plaintiff alleges that for more than three years her husband has been guilty of gross neglect of duty and habitual drunkenness. She also charges him with extreme cruelty, alleging that on May 30, 1919, he hit her and choked her. On previous occasions she says he threatened to kill her and ordered her to leave him. C. O. Turner is her attorney.

OPPONENTS OF LEAGUE PROBE INFLUENCE OF BIG BUSINESS

Solons Aroused Over The Disclosures By Borah And Lodge Tuesday

"INTERESTS" ACCUSED

Financial Support For Propaganda Campaign May Be Investigated

WASHINGTON, June 4.—League of Nations opponents are anxious to determine what, if any, part "big business" is playing in financing and aiding propaganda for artification of the covenant.

They predicted that allegations in the senate yesterday by Senators Borah and Lodge that the full text of the peace treaty, thus far not given to the senate or the publi, is in the hands of international bankers in New York, wil prove the prelude to an attempt to show:

1—What, if any, was the influence of big business, in framing the treaty and league covenant.

2—Sources from which the Taft campaign for the league and others like it have been financed.

3—Whether "big business" has sought to prevent Republican senators opposing the league.

4—If, and why, "big business" wants the league ratified. Senator Borah said today he will confer this week with a New York lawyer who, he said, informed hi mthat a directors meeting of a big international banking concern the full text of the treaty was presented and discussed.

Democrats take the position that does not absolve President Wilson from his agreement not to publish the treaty text until it has been signed by Germany.

DISCUSSION OF AUSTRIAN PEACE TERMS BEGINS

PARIS, June 4.—The big four today takes up discussion of the Austrian peace terms.

Yesterday's conference on German counter proposals is reported to have developed some "plain talking," especially by President Wilson, who abandoned his present policy of aloofness in an effort to adjust divergencies between Premier Lloyd George and Premier Clemenceau. Chancellor Renner, head of the Austrian delegation, was enroute to Feldkirch today, accompanied by Herren Muller, Martini, Gruenes and Stadler, to confer with Secretary of State Bauer.

ARMY MEN HERE FOR RECRUITING

Sergt. James Powell, of Zanesville and Private Anthony Piott, Columbus, arrived in the city Tuesday on a motorcycle with side car attachment for the purpose of receiving enlistments in the U. S. army. The men will tour the county to enlist those between 18 and 35 years of age who wish to join.

Many advantages are offered the young men in the service now. Good pay and fine living conditions are offered the new recruits and service in France is guaranteed in a short time after enlistment as all married men overseas are being brot home as soon as the new recruits can cross. If any young man is interested in any special branch of the service he is requested to interview the recruiting officer at the Coshocton Hotel. The recruiting officers will remain in Coshocton until Saturday evening.

DRIVER HURT IN PECULIAR MISHAP.

William Brown, city, was slightly injured when thrown from a wagon in which he was riding Tuesday afternoon. The king pin of the wagon broke allowing the front to drop throwing out the driver.

Brown when picked up was in an unconscious state and was removed to the City hospital where he received medical attention.

MAKER OF PITTSBURG BOMBS WILL BE UNDER ARREST IN 24 HOURS, OFFICIALS PROMISE

PITTSBURG, PA., June 4.—The arrest of the man who made the bomb that wrecked six residences here Monday night is expected within the next 24 hours, according to police authorities here.

The police say that they know the identity of the bomb maker and his arrest has been ordered by the department of justice. The alleged terrorist is said to be hiding in Chicago.

A confession as to the identity of the anarchist, is said to have been wrung from John Johnson, alleged I. W. W. organizer. Johnson was arrested here yesterday after a gun fight with city detectives.

Sixteen other suspects are held by the police, including L. M. Walsh, alleged I. W. W. organizer and John A. Borst, 52, chemist, of Brooklyn.

Police Superintendent Alderdice said today that the evidence at hand tended to show that the bomb plot originated in the Russian anarchists' headquarters in east Fifteenth-st, New York City.

AUSTRIAN PEACE DELEGATES ARRIVING AT PARIS TO RECEIVE PEACE TERMS

Call For Troops From Mayor Receives No Response From Cox—Thousands Of Strikers Collect At Willys-Overland Plant

TOLEDO, O., June 4.—Rioting which surged thru Toledo last night bringing two deaths and injury to 25 persons showed no immediate signs of breaking out again today, tho thousands of strikers were gathered outside the Willys-Overland plant, the center of the trouble. The plant was closed today.

A plea for state troops was sent to Governor Cox early today by Mayor Schreiber, who so far has received no answer.

Former soldiers, enlisted as emergency police, shot and killed two men in a riot in the Polish district last night.

Another man was shot in the leg, making amputation necessary and a little girl was wounded in the knee.

The men killed were bystanders, and did not work at the Overland plant, police said. The night riot occurred when a soldier policeman appeared armed on the street. He was chased to a district fire station, where he phoned for aid. Four truckloads of soldier-police arrived and fired into the crowd. Captain Leonard Spach, their commander, said that the soldiers fired only after they were assailed with bricks.

Two of the injured are expected to die.

ALLIED ARMIES TAKE UP STRATEGIC POSITIONS ON RHINE AWAITING ORDERS

Everything in Hair-Trigger Shape as Time Limit for Germany to Act Approaches—Military and Economic Weapons in Readiness.

PARIS, June 4. — Neutrals as well as allies are making preparations to meet the situation that would be created by refusal of the Germans to sign the peace treaty.

Both Norway and Switzerland have made known their intention to refuse to enter any blockade agreement against Germany in the event the armistice is ended.

The decisions of Holland, Sweden and Denmark are expected shortly. Everything along the Rhine is reported in hair-trigger readiness. The allied armies are understood to have taken up strategic positions, ready for a quick advance into Germany, and to be in possession of full "marching orders."

Interest is now centering in the degree to which the peace terms will be modified since there appears to be a unity of opinion that they will be modified. In French circles, it is stated that they have received the definite impression from the Americans that there will be no fundamental changes in the treaty.

Premier Lloyd George was expected to issue a formal statement today outlining the changes in the text, as suggested by British, French and American experts.

DAYLIGHT HOUR LAW FAILS TO GET REPEALED

WASHINGTON, June 4—The house today passed the agricultural appropriation bill carrying $31,600,000.

The vote was 345 to 1. Repeal of daylight savings was knocked out of the bill on a point of order before it was passed.

At the weekly meeting of the Rotary club Tuesday evening at the Park hotel, the following board of directors was elected: O. M. Dilts, E. A. Crawford, G. F. Cantwell, Geo. Mitchell and H. B. Hunt.

Miss Elma Temple, who recently returned from France, gave an interesting talk, describing some of her experiences in Salvation Army canteen service overseas. Wm Tankersley, Coshocton scout master, also gave a short address on the history, growth and good work accomplished by the Boy Scout organization. Athey's Jazz band furnished music.

At the close of the meeting the directors organized by electing the following officers for the coming year: President, George C. Mitchel; vice president, E. A. Crawford; treasurer, T. L. Montgomery; secretary, G. F. Cantwell; assistant secretary, R. S. Curtis; sergeant at arms, C. K. Clemens.

ADAMS-TP WILL CELEBRATE ON SUNDAY, JUNE 8

Sunday afternoon at 3 o'clock a patriotic meeting will be held at Bakersville in honor of Adams-tp, which oversubscribed its quota in the Fifth Liberty Loan drive. The honor flag will be presented the community for their efforts during the drive.

Rev. J. I. Wean and Judge S. H. Nicholas will address the citizens of the township. Music will be furnished by a male quartet. Also a solo number will be on the program. An effort is being made to obtain a band for the occasion.

John F. Powell is township chairman and Paul H. Welcker is district supervisor.

Funeral Of Jos. L. McDowell Saturday

The funeral of Attorney Joseph L. McDowell will be held Saturday morning at 9:00 o'clock at the Sacred Heart church. The services will be conducted by Rev. Father J. J. Slattery. A telegram was received from Mrs. McDowell, enroute from California, requesting that arrangements be made for holding the funeral Saturday morning. The body is to arrive here Thursday.

HERE'S DOCTRINE PREACHED BY ANARCHIST POSTERS FOUND AT SCENE OF BOMB EXPLOSIONS

WASHINGTON June 3 — This is the text of the anarchist poster found at the scene of the bomb outrage here

"PLAIN WORDS."

"The powers that be made no secret of their will to stop, here in America, the world-wide spread of revolution. The powers that be must reckon that they will have to accept the fight they have provoked

"A time has come when the Social question's solution can be delayed no longer, class war is on and cannot cease but with a complete victory for the international proletariat.

"... struggle is an old one. Oh, ... rat... lords of the autocratic ... We have been dreaming of ... of liberty, we ... aspired to a better world, and ... jailed us, you clubbed us, you deported us, you murdered us whenever you could

"Now that the great war, waged to replenish your purses and build a pedestal to your saints is over, nothing better can be done than to protect your millions and your usurped fame than to direct all of the power of the murderous institutions you created for your exclusive defense against the working multitudes, rising to a more human conception of life.

"We accept your challenge and mean to stick to our war duties. We know that all you do is for your defense as a class; we know also that the proletariat has the same right to protect itself. Since their press has been suffocated, their mouths muzzled, we mean to speak for them, the voice of dynamite, thru the mouth of guns.

"Do not say we are acting cowardly because we keep in hiding; do not say it is abominable; it is war, class war and you were the first to wage it under cover of the power institutions you call order, in the darkness of your laws, behind the guns of your boneheaded slaves.

"There will have to be bloodshed; we will not dodge; there will have to be murder, we will kill, because it is necessary; there will have to be destruction; we will destroy to rid the world of your tyrannical institutions

"We are ready to do anything and everything to suppress the capitalist class; just as you are doing anything and everything to suppress the proletarian revolution.

"What has been done by us so far is only a warning that there are friends of popular liberty still living. Only now we are getting into the fight; and you will have a chance to see what liberty-loving people can do

"Do not seek to believe that we are the Germans or the devil's paid agents; you know well we are class-conscious men with strong determination and no vulgar liability. And never hope that your cops and your hounds will ever succeed in ridding the country of the anarchistic germ that pulses in our veins.

"We know how we stand with you and know how to take care of ourselves

"Besides you will never get all of us —and we multiply nowadays.

"Just wait and resign to your fate, since privileges and riches have turned your head.

"Long live social revolution. Down with tyranny!

BERLIN GOES MAD OVER GAMBLING

BERLIN, June 4—Monte Carlo was gambler's kindergarten compared to "gambling Berlin" today. In Monte, you could get gamblers' excitement with a five franc piece, in Berlin the lowest bet is 20 mark. While there was a limit at Monte, you may put 50,000 marks on a single card in Berlin

If you are a stranger in Berlin just ask the chauffeur to drive you to one of the five hundred gamblers "clubs" Berlin has today Your looks will tell the chauffeur the class of club to which he had better take you to. There are all kinds, from the low class den to the most fashionable with special rooms for ladies, dancing halls and dining rooms, where dinners, wines, liquors and coffees are served at half cost price. The visitors come from all stations of life The film star sits beside the butcher-war grafter, the countess beside a horsedealer, the bakers' wife beside the coquette.

Except for some lotteries and raffles, at most of the clubs the play is "baccarat." The club owners who get five per cent of the sums raised from the auctioning of "the bank" taking place every hour at least. The "card money" or fees, together with the per centage amounts to somewhat between 25,000 and 40,000 marks per night at the biggest clubs. The directors get 100,000 marks per year.

At no time in history has there been so much gambling at such high stakes. At some clubs 5,000,000 marks change hands each night. The gamblers want to have all the action out of their fortunes before either the tax collector or the Bolsheviks gets them

But not only the wealthy are infected with the bacillus. In the streets of Berlin people may be seen to lose 50 or more marks at a single turn at "roulette." One day a soldier, having lost 500 marks, arrested the bankholder and, being attacked by the latter's friends, threw a hand grenade, killing himself and wounding several others.

The real gambling fever began during the last two years of the war and seemingly had not reached its highest point yet During the last four weeks about two hundred new clubs have been licensed. One of the new rights the revolution has provided for every "free citizen" seems to be a gambling club of his own

To prevent robbery of the clubs the military authorities provide the clubs with guards according to the size of them In order to draw the customers the owners give weekly free dinners of a large number of courses and all the champagne you want to drink.

FEDS WANT A CATCHER WHO LIVES IN CITY

The Federal baseball team needs a catcher

It's strange that in a town of 12,000 there's not a good catcher, a member of the team remarked Tuesday. He indicated his belief that there are good catchers here if they would only come out and play ball

The fans are well pleased with the performance of Catcher Miller, but the fact that he is an out-of-town man makes his services too expensive for the team

The Feds will go go to Newcomerstown Saturday and will play Cambridge here Sunday afternoon at 2:30, Central daylight saving time

All players are requested by Manager Bert Todd and Captain Hugh McKernan to appear for practice Wednesday and Friday evenings. New material is always welcome.

GERMANY AIMS TO BATTLE FOR WORLD'S TRADE

LONDON, June 4—German business is preparing to accept the challenge of European and American industry to a commercial battle for the world's markets, the moment peace is signed, according to information here

Two great rival German manufacturers' associations united recently in the "Imperial Association of German Industries" to "concentrate all forces of German economic life."

Before the war South America was one of Germany's most profitable markets and it is expected the Germans will try to win back what they have lost

German chemical firms are planning a campaign of "peaceful penetration" to regain part of the monopoly they enjoyed previous to 1914 The chemical committee of the German demobilization office and ministry of agriculture has arranged a 1919 program for production of 70 per cent of the normal output of fertilizers

Since the blockade stopped German exportation, America and the allied countries of Europe have been compelled to build up giant chemical industries of their own and these sources are now successfully supplying Germany's former customers from the desert regions of Arizona and the mountainous rim of the Imperial valley in California, American companies are drawing large quantities of potash and other chemicals ... as German's Many of these deposits have been discovered and exploited entirely as a result of the withdrawal of German products needed by American industry

TWO ALFALFA DISEASES CAUSING MUCH INJURY

Two diseases have recently been found in several Ohio localities doing serious damage in alfalfa fields sown last fall. One is the stem-rot or wilt, the other is downy mildew

The downy mildew attacks the leaves, which become pale in color and finally yellow or white. sometimes tinged with purple. They are sometimes dwarfed and crumpled or curled The lower surface of affected leaves is covered with a downy, white, gray, or purplish mildew which gives the disease its name. In wet weather the disease spreads rapidly and may do considerable damage. Cutting the alfalfa somewhat earlier than usual, that is, before the diseased leaves have dropped, and careful removal of all stems and leaves, may be advisable in order to reduce the disease on the new growth.

The stem-rot is a far more destructive disease It began to develop, apparently, early in April. The first indication of the disease is a wilting of the plants scattered over the field. They soon die, turn yellow or brown, are rotted off at the base, and finally collapse. Rather early in the development of the disease the stem near the ground is covered with a whitish cottony growth. In the rotted plant tissues and in the soil immediately about the collapsed plants are found small, hard, black bodies which constitute the resting condition of the fungus causing the disease. Practically all of the plants may be killed in rather large patches and the disease on this account, has sometimes been mistaken for winter killing

Red and mammoth clovers are also subject to attack and several Ohio fields have been reported diseased this spring.

After the disease has secured a foothold in a field there is no practicable way of getting rid of it. The fungus is able to live in the soil for a number of years. Therefore, susceptible legumes should not be sown for several rotation periods in fields where the disease has been abundant. Alsike clover and sweet clover are not known to be attacked in this country and may be substituted for alfalfa and susceptible clovers in the rotation system.

FREE BI-NESIA FOR DYSPEPTICS

All Dyspeptics and Sufferers From Acidity, Gastritis and Indigestion Are Invited to Prove, Free of Cost That Bi-nesia Will Stop the Pain in Five Minutes.

That Bi-nesia will not only prevent stomach trouble, but will also give relief in five minutes in nearly every instance, is well known to thousands who used to be afraid to eat; but who now, thanks to Bi-nesia, have almost forgotten the meaning of the word indigestion.

There are, however, other thousands of stomach sufferers, who, having tried countless preparations without getting relief, have concluded that nothing will help them—that they must go on suffering agonizing pain after every meal until they die.

If you happen to be one of these sufferers we want a chance to prove to you at our expense that Bi-nesia really will give you the relief you seek. That's why we ask you to go today to Wimmer-Arnold Drug Co. and get a free trial package of Bi-nesia. We don't claim that this trial package will permanently relieve you of all your stomach troubles, but we do believe that it will quickly relieve the pain and convince you that Bi-nesia is the best thing you have ever tried; and that you will always want to have it handy.

If inconvenient to call for the free package you can still try Bi-nesia without risking a cent. Go to your nearest druggist and get a 50 cent package of Bi-nesia tablets. Take three after each meal or whenever pain is felt and if you aren't delighted with the results you can have your money back for the asking, for every package contains a binding unconditional guarantee contract of "satisfaction or money back." Remember the name "Bi-nesia." Get it today and experience the pleasure of eating whatever you want without fear of pain or discomfort to follow.

RIOTS IN SPAIN

MADRID, JUNE 3—Rioting has occured in several cities as a result of the national elections.

Violent disorders were reported in Seville and Grenada, where the Socialists were successful in the balloting.

Financial Letter

Reasons for Caution and Hope.

NEW YORK, June 4.—One of our foremost bankers returned from Europe with very discouraging views regarding economic conditions over there. Such views are but natural to those who have been forced to endure prolonged strain. All the belligerents have suffered beyond words, and their people are more or less under the influence of nervous exhaustion; so that at this time hopefulness is not to be expected. But this state of mind is only transitory. The recuperative abilities of the three greatest European nations are not fully realized. When peace has been signed, when unrest subsides, when industry revives, drooping spirits will vanish; and the hopes of a new and better era will stimulate men into fresh energy and enterprise. The surest cure for post war maladies will be work. The world is weary of bloodshed and waste; it hungers for productivity, and this country can devote itself to no more beneficent purpose than aiding resumption with all the financial and industrial support that we can safely put forth. In helping Europe on sound and generous lines we shall be helping ourselves. We have an abundance of all the food and raw material needed across the Atlantic, and if we lend wisely and liberally Europe will be able to pay us the more promptly.

Our Place in the World.

The United States is today beyond question the strongest nation in the world. We have reached our maturity, tho far from our full development. We need a freer intercourse with our fellow-men thruout the world. We want more of the fruits of civilization; and if we are to possess these things, as we should, we must be prepared to take our proper place in the forefront of the family of nations, ready for the responsibilities that such legitimate ends imply. We must sustain the weak; doing our part for maintaining international order, and giving the helping hand to those about to embark upon the stormy seas of self-government and democracy. George Washington's memorable advice about avoiding foreign entanglements applied very closely when we first began to walk in paths of freedom; but they do not apply in the same degree under modern circumstances. Responsibilities of this character have too long fallen upon a single nation; Great Britain already having a much heavier burden of this character than she can be expected to carry without incurring jealousy if she adds to it. Why should we not act as disinterested guide and stabilizer to wretched Armenia and disorganized Turkey? No one will deny that our supervision over Cuba and the Philippines has been beneficial to all concerned, despite our mistakes. We have shirked such responsibilities too long. Let us take our proper place in world leadership on lines that will appease and not create jealousies. Such a policy would broaden our vision at the same time diverting us from petty home politics and saving us from the evils of excessive self-introspection.

Psychology as a Market Factor.

Psychology is playing an extraordinary part in the present security market. It is a common belief that there is no sentiment in business; and in a large measure this is true. But confidence and depression are opposing sentiments, which have had very much indeed to do with values since war began. We are just emerging from the most stupendous crisis in history, and extreme reactions are inevitable. In other words, the pendulum must swing backward as violently as it previously swung forward, accelerated by economic starvation following war. We are already in a period of unreasoning optimism, a perfectly natural sequence of the terrible depression of the last few years. The world is consequently threatened with an era of speculation and expansion that later on may strain banking resources to the very limit unless restraint is wisely and courageously applied to prevent dangerous excesses. Fortunately American bankers are much alive to such possibilities, tho without co-operation of the business community they cannot be entirely averted. The present inflationary temper is the sequence of past events; a sort of fever in the blood of our economic system, which must run its course to the point of exhaustion, a result not yet in sight. Despite inflation of credit, commodities and wages, the business situation in the United States is still strong, much stronger than that of any other nation in the world, because for the next twelve months at least we stand to lose less and gain more than any of the other nations involved. There are unusual danger spots ahead and great risks of an inflation that will bring unpleasant consequences later on, unless checked in time. The immediate outlook, however, as a whole warrants discriminating confidence and a steady belief in all sound and well established enterprises.

Stock Market Influences.

Stock Exchange activity has continued upon an extraordinary scale, nearly 2,000,000 shares daily altho intervention of Decoration Day caused some slowing down. Values as a rule continue to advance, the exceptions being few and unimportant. Considering the enormous transactions, profit taking was very moderate, in fact, moderate liquidation is desirable in some quarters where the pace has been too fast and the rise too uneven. The greatest advances were among the industrials, not a few of which are making very large earnings. Thus far however, the rise has been simply a natural response to unprecedented conditions, the prime factor being the great wave of agricultural prosperity which is sweeping the country. Even should the weather not prove all that might be desired during the next few weeks, we are assured a wheat crop of 900,000,000 bushels, or more, at exceedingly profitable prices. The buying power of the interior for another year will consequently be sound tremendous, and the only impediment to widening mercantile activity at this moment is a prudent hesitation of distributors to stock up freely at current high prices. But a great consumptive demand is in prospect nevertheless, the only check upon which will be frequent scant supplies and inordinately high prices that are already acting as an important restraint upon buyers.

The Railroads and Congress.

The agricultural situation is also a very important factor in the railroad outlook, which otherwise would be very discouraging. It is credibly stated that the railroads will be behind to the amount of $1,700,000,000 before return to their owners, a sum which Congress may be asked to appropriate in fulfilment of its promise to restore the roads to their owners in as good condition as when taken over. This promise alone saved the roads from financial disaster, and, when to this is added the prospect of good business next fall, it is seen that their future is much better than appears on the surface, hence their recent strength. The next important consideration in connection with security values is the attitude of the new Congress toward business, which is more reasonable and capable than its predecessor. The necessary appropriations will certainly be made; the railroad problem will of course be tackled, and some improvement in the methods of taxation will be accomplished, even if no reduction in amount is effected. Tariff legislation is possible, but it will be [illegible] are reached.

HENRY CLEWS

MADE DOUGHNUTS AT U. S. MILITARY BALL

Capt. Pearl Hamilton.

Capt. Pearl Hamilton, the adopted daughter of Commander Evangeline Booth, made a special trip to Washington recently to make doughnuts for the grand military ball given to open the Salvation Army drive in the national capital. The doughnuts were made in exactly the same way as those made by Capt Hamilton for the soldiers in the trenches in France, and they are said to be the cause of the unprecedented success of the affair.

AMERICA'S DISGRACE.

Lamar, Missouri, is the latest American community to disgrace itself with a lynching. It doesn't set well with Russians and other European nations in the throes of social revolution to be lectured by Americans for their anarchy and then read in their newspapers of the promiscuous burnings and hangings and shootings and lootings which have been common occurrences in our southern states, and none too rare north of the Mason and Dixon line, for the last two generations.

The murderer of Sheriff Harlow and his son had confessed his crime, so the only redeeming feature of this act of barbarity was that an innocent man was not made to pay the extreme penalty, as was the case only recently in a typical South Carolina negro lynching. It might also be added that there was no mob disorder, aside from the unwarranted deed itself, in the Missouri instance.

But neither of these conditions in the slightest degree justifies the lynching of the criminal. That in itself was an act of criminal lawlessness, subversive of all law and order. There was no excuse of a delay or defeat of justice. The courts had dealt promptly with the criminal and he was sentenced to the full penalty for his crime under the law.

In its effect on organized society and the State the crime of the mob was worse than the crime of the lynched murderer. It was an attack on all law and order, an attempt to subvert them and to substitute personal vengeance for justice under legal process, and mobs for courts.

The men guilty of the crime should be indicted and punished. This is necessary as a vindication of law and order.

A DEMAGOGUE'S SPEECH.

Senator Reed's recent speech against the League of Nations is the cheapest kind of demagogy. We have no personal knowledge of the man, but he must be small potatoes to get up in the nation's highest legislative body and make an utterance such as that.

The St. Louis Post-Dispatch, the most influential newspaper in Senator Reed's state says his speech is "intellectually of the caliber that might be expected from a mob leader trying to incite his followers to violence." In the latter case we should look for appeals to race prejudice, but such argumentative destitution is a sad spectacle to behold in the "greatest deliberative body on earth."

Before the Senators from the South Reed flaunted the specter of negro equality, while the Senators from the Pacific coast were admonished against the Jap and Chinaman. And, with broad gesture, the white peoples of all lands were warned that the League of Nations would eventuate in a colored coalition and colored domination.

Thotful people are wholly agreed that race prejudice is one of the basest emotions—one of the most wretched survivals of darkness and ignorance. Its eradication is an objective for which progress strives and to which light and attainment point the way. To race prejudice may be charged most of the hatreds and cruelties and tyrannies that have made time a treadmill instead of a path.

The degree of human happiness and capacity everywhere is in proportion to the relative absence of this venomous passion. The League of Nations is an aspiration to the practical brotherhood of man, from which domination of any tint shall be excluded; an age of reason when all peoples shall be free to work out their own destiny under no foreign yoke.

It is an ideal, manifestly, beyond the perceptions of Missouri's demagogic Senator.

NEGLECTED.

Said Old Bill Jinx, 'I'm poor I ween
and so I'm always slighted; I think
my neighbors pretty mean; they burn
each day their gasoline, and I am not
invited. If they would say, 'Bill, come
and ride, enjoy a little outing,' they
joy would in my soul abide enlarge
my heart, expand my hide—I would
not sit here pouting." Said I, "At six
o'clock I'll come, and take you for a
journey; be ready then, you good old
bum; thru woodland scenes we then
shall hum, by meadows lush and
fermy." And just at six I tooled my
crock to old Bill's lowly dwelling, my
promptness seemed to give a shock,
"Just wait ten minutes by the clock,"
I heard this William yelling. Ten
minutes then I waited there; I waited
more than twenty; and I was sorer
than a bear, for I had no cheap time
to spare—I thot I'd waited plenty. Old
Bill would like to have a ride, and
breathe the evening zephyrs, and see
the babbling streamlets glide across the
verdant country side, where graze the
spangled heifers. But he's too dense
to realize that folks object to waiting;
and so he stands around and sighs,
and beefs about us moneyed guys, and
does a spell of hating.

PLEADS SELF DEFENSE

LONDON, OHIO, JUNE 3—Self-defense will be the plea of Mrs. Lela Grizzell, 23, of Columbus, when she faces trial for the alleged murder of Milton G. Donavon, Columbus taxi driver.

Arraigned before Mayor E. N. Gordon today, Mrs. Grizzell waived examination and was bound over to the grand jury without bond. Mrs. Grizzell said she shot Donavan only as a last resort when he attacked her.

SEEKS MUTTON FOR SAMMIES

The United States government is in the market for a million and one-half pounds of fresh frozen mutton. During the war practically no lamb or mutton was purchased. The occasional use of lamb among such a cosmopolitan group as our present army it is declared will result later in having a widening effect on the market when the Sammies become more familiar with this article of diet.

Sheep men say that when the demand for lamb from the corn belt and the far west such as now exists in New England, increases, lamb prices will not go much higher than the weekly supply for the nation runs over 125,000 head.

Ambition Salts

Start Each Day Right With A Clear Head and Good Appetite in the Morning

You can't do business right if you start the day wrong. AMBITION SALTS is the great rectifier of mistakes of eating or drinking the night before. If you dine "not wisely, but too well," take AMBITION SALTS before going to bed.

In the morning wake with your head clear, your stomach feeling fine, your eyes bright with the sparkle of health and energy. Be in condition to enjoy your work and do it well.

AMBITION SALTS is pleasant to take, acts quickly, no pain or discomfort. A large bottle at Wimmer-Arnold Co's costs but a few cents. Your money back on the first bottle purchased if you are not satisfied. Guaranteed to be the finest sort of remedy for indigestion, headache, biliousness, constipation, acid stomach, sluggish liver, kidney troubles and malaria or no pay on the first bottle purchased. Drive the uric acid from your system with AMBITION SALTS. Make your blood pure. Pure blood means rugged health—just what you're seeking.

Jump from Bed in Morning and Drink Hot Water

Tells why everyone should drink hot water each morning before breakfast.

Why is man and woman, half the time, feeling nervous, despondent, worried; some days headachy, dull and unstrung; some days ready incapacitated by illness.

If we all would practice inside-bathing, what a gratifying change would take place. Instead of thousands of half sick, anaemic-looking souls with pasty, muddy complexions we should see crowds of happy, healthy, rosy-cheeked people everywhere. The reason is that the human system does not rid itself each day of all the waste which it accumulates under our present mode of living. For every ounce of food and drink taken into the system nearly an ounce of waste material must be carried out, else it ferments and forms ptomaine-like poisons which are absorbed into the blood.

Just as necessary as it is to clean the ashes from the furnace each day, before the fire will burn bright and hot, so we must each morning clear the inside organs of the previous day's accumulation of indigestible waste and body toxins. Men and women, whether sick or well, are advised to drink each morning, before breakfast, a glass of real hot water with a teaspoonful of limestone phosphate in it, as a harmless means of washing out of the stomach, liver, kidneys and bowels the indigestible material, waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Millions of people who had their turn at constipation, bilious attacks, acid stomach, nervous days and sleepless nights have become real cranks about the morning inside-bath. A quarter pound of limestone phosphate will not cost much at the drug store, but is sufficient to demonstrate to anyone, its cleansing, sweetening and freshening effect upon the system.

BORAH FLINGS NASTY CHARGE AT OFFICIALS

WASHINGTON, JUNE 3—"Certain interests" in New York City are in possession of the full text of the treaty with Germany, Senator Borah charged on the floor of the senate today.

"These interests are dealing with it and discussing it while the people of the United States and the senate have never been given the full text" Borah said.

Senator Lodge declared he has a copy of the treaty in his hands yesterday.

"The treaty is in New York," Lodge declared flatly. "I had a copy of it in my hands yesterday. I was offered a copy but I refused it, as I said that if a copy ever came to me I should feel compelled to make it public."

TWO HOMES IN BOSTON BOMBED BY BOLSHEVIKI

BOSTON, June 3—Bombs damaged the homes of two prominent men in Greater Boston last night.

An infernal machine placed on the piazza of the Roxbury home of Justice Albert F. Hayden, who presided at the trials of the May Day rioters here, almost completely wrecked the building. Judge Hayden and his family were away at the time. No one was injured.

In Newtonville the home of State Representative Leland Powers was partially wrecked and his little daughter and a housekeeper slightly injured when a bomb exploded in the doorway of a cellar at the rear of the building.

Anarchistic literature, found near the scene of the explosion at Judge Hayden's home in Roxbury was said to be identical with leaflets found at explosions in other parts of the country last night.

LITTLE SICKNESS IN STATE LAST MONTH

COLUMBUS, June 2 — Communicable diseases excepting influenza, were only one-half as prevalent in Ohio in April of either 1917 or 1918, according to reports from local health districts to the State Department of Health as given out by that department today.

Excluding influenza, there were 6,758 reported cases of disease in the state last month. The two previous Aprils registered in the neighborhood of 14,000 cases each of the same diseases. Influenza cases totaled 7,477 last month. This disease was not reportable in previous years. The March total was 28,668.

Decreases, as compared with previous Aprils, were most notable in diphtheria, measles, German measles, meningitis, lobar pneumonia, infantile paralysis, scarlet fever, smallpox, tuberculosis, typhoid fever and whooping cough.

Reports indicated a much lower prevalence of influenza than at any time since the beginning of the epidemic last fall.

Announcement

To Owners of Liberty Bonds

In view of the fact that we will shortly move into our new Banking room where it will be possible to render better service than we have been able to in our temporary location—We are glad to announce that we will in the future accept Liberty Bonds for Safe Keeping FREE OF CHARGE as has been our custom in the past and IN ADDITION will clip the coupons as they mature, crediting the proceeds to your account in our Bond Department—thus saving you the trouble of asking for your Bond and clipping the coupon yourself. When a Bond is left for safe keeping we will issue our Certificate showing it is deposited with us and the Bond of course or the interest which has matured may be withdrawn at any time.

No charge is attached to this service—IT IS FREE TO ALL—Whether you have subscribed for your Bond through us or through some other institution.

Coupons as they mature should be clipped—Coupon Bonds should be deposited in a Bank—they are the same as money and should be safe guarded from fire and theft—Our vault is the strongest in this section of the State—and we are glad to offer you its protection.

For those who have valuable papers in addition to Liberty Bonds—we have installed a limited number of safe deposit boxes—for a small annual rental you can have a box in our vault—we are making reservations now.

COSHOCTON NATIONAL BANK

FOURTH AND MAIN-STS.

New York Day-By-Day

By O. O. McINTYRE

DAILY LETTER FOR WEDNESDAY

NEW YORK, June 4. —
Down on Fifth Avenue.
There is a man.
Who opened an office.
To teach boobs like me.
How to be snappy.
Around drawing rooms.
And to tell the difference.
Between a Cubist painting.
And a chocolate eclaire.
And how to explain.
Just what the vorticists.
Are trying to prove.
And I think I'll go.
And get educated.
Even at this late day.
I do not know.
What an f. o. b. is.
Except it is something.
About an automobile.
And the other day.
I saw a Matisse painting.
And thot it was.
A map of Slovakia.
Or wherever it is.
They raise those Czechs.
I hear them talk about.
I hope the professor.
Will throw in a few lessons.
On what to do with the hands.
When in a big crowd.
Mine always feel.
Like a couple of hams.
Also I'd like to know how.
To look like a movie hero.
In the last reel.
When he sits on the bench.
In front of the castle.
In the pale moonlight.
Waiting for the girl.
Who found out.
He wasn't.
What she thot he was.
There is something.
About those guys.
That is just too grand.
The way they sit down.
And cross their legs.
And light a cigarette.
And push back their hair.
And flick a bit of fluff.
Off their dinner coat.
I'm thinking of going.
To the seashore this summer.
And that stuff.
Might come in handy.

DON'T RISK NEGLECT

Don't neglect a constant backache, sharp, darting pains or urinary disorders. The danger of dropsy or Bright's disease is too serious to ignore. Use Doan's Kidney Pills as have your friends and neighbors. A Coshocton case. John Weatherwax, 418 S. Seventh St., says: "I suffered from pains in my back and some mornings I could hardly get out of bed on that account. I passed the kidney secretions too often and they scalded in passage. I had pains in the back of my head and sometimes was so dizzy I had to put my hand on a chair to steady myself. Two boxes of Doan's Kidney Pills greatly benefited me and helped me in every way."

MACHINE STOLEN AT DRESDEN WAS FOUND AT NEWARK

NEWARK, O., June 3.—Local police and Gustave Brogatus, residence unknown, figured in a lively gun battle when the police attempted to stop Brogatus, who was fleeing in a Ford touring car which he is alleged to have stolen from Dr. W. T. Conley, of Dresden. The fugitive seeing that escape was impossible, leaped from the automobile and gave himself up. Dr. Conley went to Newark and identified his car, which was stolen in front of his residence Friday night. Despite the many shots which were fired, no one was injured.

EDITH CAVELL'S BODY IS LAID TO REST IN NATIVE TOWN AS ENGLAND BOWS HEAD

Body of Edith Cavell being carried into Norwich cathedral at Norwich, England.

The body of Edith Cavell, the English nurse who was executed by the Germans early in the war, now rests in her native town of Norwich, England. Her grave was found by the allies in the closing days of the war and recently her remains were made ready for shipment home. Soldiers for whom she had given her life and nurses who had been inspired by her martyrdom and British officials formed the funeral cortege. A burial service was read in the cathedral at Norwich, Miss Cavell's home, and the body was buried in Norwich cemetery.

conduct of the city government. I will, if nominated and elected, appoint an advisory committee to meet with the mayor at least once a month to make suggestions and recommendations on industrial, moral, social ,economic and labor questions insofar as these questions relate to the conduct of the city government. The committee will be selected from persons recommended by the manufacturers, business men, trades and labor council, churches ,and the Federated Woman's club.

This committee will serve without compensation and while it would have no legal or official standing, its recommendations and suggestions would have great weight with the official head of the city government . This committee will also have great influence in creating public sentiment that will encourage and uphold the city administration in the performance of duties that at some times become discouraging by reason of a lack of public sympathy in the enforcement of the laws I believe that all of these organizations will select their most representative members to serve on such a committee and that those selected will be willing from patriotic motives and love for our beautiful city to render such a service.

The Bible says, "That a city divided against itself cannot stand." We have had a wonderful demonstration during the past two years of what can be done by the people when they are united in any effort, as the people of Coshocton were in putting over the several Liberty Loans, the raising of the War Chest and Salvation Army funds. If our citizens would continue this same spirit of co-operation there is no reason why Coshocton should not double its population within the next five or ten years We have an inexhaustable supply of coal and water and transportation east, west, north and south Living conditions are much better here than at Canton or Akron that have doubled their population in a few years With the co-operation of ALL our citizens the same results can be accomplished here. It will be my constant endeavor as the official head of the city government to encourage such a spirit of co-operation and harmony among our people as will put us in a position to take advantage of every opportunity to advance the material interests of the city so that all may be benefitted in whatever prosperity may come to us from our united efforts.

If the above outline of my platform and views on municipal affairs meet with your approval I will appreciate your support at the primary election August 12th and the November election.

Ohio Federation of Women's Clubs

Last Club Letter Till Fall.

This is the last official club letter of the Ohio Federation of Women's Clubs until September 6. It is customary to discontinue the column for this period, as the club season is about over. If we exceed the limits of our alloted space, we hope the patient editor will forbear with us, since this will be the last letter for so long a period and there is so much to say.

Mrs. James Neil Fleming, of Cleveland, who built the wonderful program for the Coshocton convention which was never held on account of the "flu," will arrange the convention program for the silver anniversary victory jubilee state gathering of club women in Cleveland next October. This twenty-fifth annual convention in the Forest City is going to be the greatest ever held by Ohio club women.

The administration of Mrs. Prentice E. Rood, of Toledo, as state president, has been uncommonly successful so far, and the indications are that by the time her term expires none of her predecessors in office will have accomplished more. Mrs. Rood's administration has been marked with such success that it has drawn favorable comment, not only thruout all Ohio, but in the nation as well. I am referring, of course, to club circles. She is noted for her sweet temper, common sense methods of handling the numerous and trying problems that come to her, and her uniform courtesy. According to her official report thirty new clubs were admitted into the state federation last year and the outlook is very bright for this year. There are scores of clubs belonging to city federations that do not hold memberships in the state federation. It is most advantageous for these clubs to join the Ohio federation. Belonging to the state federation is like sending your boy or girl away to college, one's mental vision being materially broadened by commingling with so many bright and cultured women from so many different parts of the state and country.

Before leaving for the General Federation convention at Asheville this week, Mrs. Rood announced that her appeal for contributions to the war victory commission is being splendidly responded to by Ohio club women. Only those who have not given are asked to give to this worthy cause. Our state president is hoping, too, that the subscriptions for the General Magazine are continuing to go into the New York office. The price of this club woman's national magazine, she says, will be advanced in the fall. It was to have been advanced sooner, but owing to unsettled conditions of clubs because of the influenza epidemic the management decided to wait, altho the cost of paper, printing etc., has gone up more than fifty per cent. Club women everywhere in Ohio should help to pile up the 6,000 subscriptions, this state's quota for the General Magazine.

Newark's Little Wonder Club.

In 1913, at Newark, ten little girls aged from ten to thirteen years, schoolmates and chums, growing just a little weary of play and games, decided they would follow the example of their elders by organizing a club.

This, they proceeded to do, and after much discussion, decided the name should be the Twentieth Century club, indicating progress and development. Officers were elected consisting of a president, secretary and treasurer, and club dues were fixed at ten cents a month. Club pins were selected and purchased, and they found themselves in full working order with "nothing to do."

Weekly meeting with light refreshments, alternating at the home of each member, did not seem to satisfy them. They decided they wanted to do something worth while, to help in some really useful work, but "what to do" was the great question.

The new City hospital was being erected, and an appeal had gone forth to the public for the equipment. It was suggested to one of the little girls that it would be a nice thing for them to equip the babies' ward. The task looked entirely too large for so small a club. It decided, however, "to give a social," and accordingly made the announcement "that upon the spacious lawn of one of the members, ice-cream, cake and punch would be served." To help swell the funds, each little girl gave up her toys, dolls and other playthings, and pooled them in a fishingpond. The evening came, the public responded, and much to their surprise, they found they had cleared $65. This gave them confidence, and they immediately announced to the hospital trustees that the Twentieth Century club would agree to furnish and equip the babies' ward of the new hospital.

A second garden party was given, from which they cleared $105, and by their own efforts raised funds to purchase the many dainty beds, bastinets, chests, baby-weight scale, and every necessity for baby's comfort, or that would gladden the heart of a fond mother. In 1917, they organized a "Hospital Tag" day, which was duly advertised thru the newspapers, and when this day arrived, from early morning until late at night, "Buy a Tag, please, for the benefit of the hospital" was heard on every prominent corner. Their idea was responded to by the public, and the evening showed $420 as a result of their day's labor. Their surplus fund that year was used to redecorate and help furnish the nurses' home.

In 1918, "Hospital Tag" day, which has now become an annual event on the Saturday before Easter, netted $670. The surplus that year went to equip a domestic science department for the nurses' training school.

In 1919 "Hospital Tag" day showed $736 as a result of their efforts. The surplus fund of this year, after caring for the babies' ward was spent in laboratory equipment for the hospital.

In addition to their hospital work, members of the Twentieth Century club have been no small factor in war work, and a call from the needy is assured of help, if the Twentieth Century club is behind it. They have been entertained many times by the members of the ladies' board of managers and hospital trustees, and with outings at Buckeye lake and house parties; they have had one round of pleasure, and the satisfaction of knowing they have aided in a good cause and in the civic welfare of their home town. The real lesson they have learned is that it is better to give than to get, better to serve than to be served, and that the real joy of life is in helping others.

The charter members of the club are now young ladies and will this June complete their high school work and leave for college. In order that the work of the Twentieth Century club may go on, they are now selecting and training their successors to assure the future success of the work. The members of the Twentieth Century club are Mary Windle, president; Helen Norpell, Elizabeth Kibler, Laura Beggs, Anna Haynes, Marion Montgomery, Margaret Bader, Mildred Simpson, Mary Kibler, Hazel Colville, Dorothy Wilson, Neva Hulshizer and Louise Henderson.

This remarkable report was furnished by Mrs. R. C. Davis, president of the Newark Federation of Women's Clubs.

Norwood Club Elects Delegates.

Norwood Musical club set a good example for other clubs when it elected at its last meeting delegates to the state convention in Cleveland next fall. So many clubs fail to elect state delegates until the fall club season opens.

Relief Work In Summer.

Authorities say that there are 500,000 destitute in Serbia. The Serbia Relief Commission in America has taken 40,000 orphans as its goal to support. It is estimated that this number can be cared for at an average of only twenty cents a day. The need is so urgent that an appeal to club women is made asking them to do all in their power to arouse interest in these stricken people's welfare. Can you get your club, your Sunday-school or church to adopt a cottage of twenty Serbian orphans? Please write if you can help or if you have any suggestions. Much of the war work is over, but there is yet a lot to do. Our state president requests that club women keep on serving in every possible way as long as there is necessity for so doing. Serbian relief would be a splendid work for this summer. Write to Mrs. Stella D. Whipkey, No 70 Fifth avenue, New York.

MANY STORES CLOSE HALF DAY WEEKLY

The jewelery stores ,druggists, barbers and clothing stores will close their business houses Thursday at noon during the months of June, July and August A meeting of the different bank heads was held Monday morning and it was definitely decided to close all Thursday afternoon during these months beginning Thursday of this week.

In some of the other lines of business many of the merchants were in favor of closing thru July and August but not in June as the country trade was greater during this month than in the other two due to the busy harvest season An attempt is being made to have all the retail houses remain closed Thursday afternoon this summer

Strong, Forceful Men

With Plenty of Iron In Their Blood—

Those Are The Ones With The Power and Energy To Win

The Strong Vigorous Man Is Supreme

"Many a capable man or woman falls just short of winning because they don't back up their mentality with the physical strength and energy which come from having plenty of iron in the blood," says Dr. James Francis Sullivan, formerly physician of Bellevue Hospital (Outdoor Dept.), New York, and the Westchester County Hospital. "Lack of iron in the blood not only makes a man a physical and mental weakling, nervous, irritable, easily fatigued, but it utterly robs him of that virile force, that stamina and strength of will which are so necessary to success and power in every walk of life. It may also transform a beautiful, sweet tempered woman into one who is cross, nervous and irritable. To help make strong, keen, red-blooded Americans there is nothing in my experience which I have found so valuable as organic iron—Nuxated Iron." It often increases the strength and endurance of weak, nervous, run-down people in two weeks' time. Unlike the older inorganic iron products it is easily assimilated, does not injure the teeth, make them black nor upset the stomach. The manufacturers guarantee successful and entirely satisfactory results to every purchaser or they will refund your money. It is dispensed in this city by all good druggists.

Cuticura Is The Soldier's Friend

After long hours of hiking or guarding, when his feet are swollen, hot or blistered, the soldier will find wonderful relief in a Cuticura Soap bath followed by a gentle anointing with Cuticura Ointment. These fragrant, super-creamy emollients soothe and heal eczemas and rashes, stop itching, clear the skin of pimples, the scalp of dandruff and the hands of chaps and sores. Also for cuts, wounds, stings of insects, sunburn or windburn.

Shave with Cuticura Soap The Healthy, Up-to-Date Cuticura Way. No mug, no slimy soap, no germs, no free alkali, no waste, no irritation even when shaved twice daily. One soap for all uses—shaving, bathing, shampooing. Peerless razor efficiency, not to speak of value in promoting skin purity, skin comfort and skin health.

BRAWN ALONE CAN NOT WIN FOR WILLARD

NEW YORK, June 4—There is no reason why brawn and height, just because it is brawn and height, should be pointed out as cause for believing Jess Willard will defeat Jack Dempsey.

In the history of pugilism there have been several very large and powerful fighters who have been defeated by smaller men. It is not necessary to go very far back to find instances.

Dempsey himself furnished the records with an episode of this sort when he stretched Carl Morris unconscious and again when he plastered the huge and ponderous Fulton in Newark in a single round.

Many fight fans who believe Willard will win declare he is so adept at using his weight and his hands to shield himself that Dempsey never will be able to reach him with those hammer blows. They thought the same thing when Dempsey met Fulton.

There is no man who can withstand a paralyzing blow on the point of the chin. The knockout spot always is there. It only requires a man to find it. Dempsey hits hard enough to fell anyone. If he hits Willard's chin the giant will fall.

The same can be said for Dempsey. If Willard leans on his chin with that ham like right Jack will be licked right there.

CAR FARE AT CANTON STAYS AT FIVE CENTS

CANTON, O., June 3.—Council last night rejected application of the Northern Ohio Traction Company for an increase in fare to six cents and this morning more than 1000 employes of one large plant started a boycott against the company as a protest against poor service.

Workmen living at a distance were hailed to work in automobiles provided by themselves or fellow workers. Several other shops declared that their employes would join the boycott within the next day or two.

The men charge that the company fails to provide sufficient cars during the rush hours and that the tracks are in such a state of decay that travel over them is dangerous.

OPPOSITION TO SOVIETS IS UNHEARD OF BECAUSE IT'S IMPOSSIBLE, SAYS REPORTER

(Following is the second of the series of dispatches by Frank J. Taylor, describing conditions in Russia, from personal observations by him.)

By FRANK J. TAYLOR
U. P. Staff Correspondent
(Copyright, 1919, by the U. P.)

PARIS, June 3.—The Bolshevik government is built from the masses it has a power to dictate over the individual impossible even by czarism. There is no disorder, no anarchy, nor uprising anywhere within the territory controlled by the soviets. Opposition is unheard of, in fact it is impossible owing to the strict political control. Hence the Russians meekly follow the Bolsheviki to the great majority longs for the day when Bolshevism, no longer is the means of arousing mere reaction to czarism which the people really fear will return if the Bolshevik armies are defeated.

Passing from town to town on my way to Moscow from the front and talking with soldiers and civilians who overcrowded the forkwater trains I had more than an ordinary opportunity to learn the viewpoint of the people and see Bolshevism operating outside the capital.

"The Bolshevik government is better than Nicholas' regime," with the universal shrug of shoulders, was as much as most people dared to say, the occasionally a more intelligent man would watch his opportunity, as soon as he learned I was an American to admit frankly Bolshevik oppression, always winding up with the opinion that the present situation could not last.

Even in Moscow, several prominent communists admitted not publicly that it was impossible to realize the entire Bolshevik platform in practice. These chief concessions such as the labor code by which 17 different grades of wages are paid industrial workers, and [illegible] as high as 20,000 rubles a month offered to induce trained professionals to direct bolshevik enterprises. Some Bolsheviki even boasted the soviet government is swinging toward conservatism. Several pointed out it is practically a constitutional parliamentary form of government, from the central soviet congress, which is elected by the local soviets. The central soviet chooses the central executive body, which names the cabinet.

At present, war time measures place the country under control of a supreme council of six, including Premier Lenine, War Minister Trotsky and Foreign Minister Tchitcherin, who have powers of dictatorship. The majority of office holders are professionals and agitators who forbid opposition under the pretext that the country is at war.

Anti Bolshevik publications as well as meetings are not permitted. The most vital problem, in the eyes of the Bolsheviki is obtaining recognition from the United States and other outside powers, of which their leaders are hopeful. They have offered concessions such as assuming full responsibility for Russia's debts, guaranteeing not to conduct propaganda outside Russia, in fact, almost anything that will enable them to control Russia without molestation.

The foreign office is busy concocting notes daily appealing to the peoples of all lands to grant Russia peace and condemning the enemies of the Bolsheviki. One member of the foreign office asked me how their wireless messages were being received in the outside world. At the reply that they would "go better" if worded more briefly, and business like, the Bolsheviki became angered.

"You forget these manifestos are intended more for Russian home consumption than for the outside world," he declared.

The press is filled every day with wordy proclamations and manifestos. The only news printed comes thru government-owned agencies. Foreign news is confined to a "hand out" which the foreign office picks up from wireless dispatches and censors before publication. The outside world is as blank to the Russians as Russia is to the outside world.

OCEAN FLYING IS NOT SAFE FOR COMMERCE

LONDON, June 3.—"Our flight from Rockaway to Plymouth has convinced me that regular commercial trans-Atlantic flying is not yet practicable," Commander Read, skipper of the seaplane NC-4, said today. "I do not believe the science of aviation is sufficiently advanced to enable an aviator to cross with certainty. The reason is obvious, from the fact that of three American and two British planes attempting the flight only one got there.

"Commander Towers, Lieutenant Commander Bellinger and I will prepare a lengthy report to be presented to the navy, detailing our experience, which is expected to have a bearing on future aviation, including the commercial aspect."

Yes; S. S. S. Is Purely Vegetable Nature's Safe Blood Treatment

Known for 50 Years as the Best Remedy for Rheumatism, Catarrh, Scrofula, Skin Diseases.

Scientists have discovered that the forest and the field, are abundantly supplied with vegetation of various kinds, that furnish the ingredients for making a remedy, for practically every ill and ailment of mankind. Medicines made from roots, herbs, and barks which Nature has placed at the disposal of man, are better than strong mineral mixtures and concoctions. Mineral medicines work dangerously on the delicate parts of the system, **especially the stomach and bowels, by** eating out the lining membrane, producing chronic dyspepsia and often entirely ruining the health.

S. S. S. is made entirely of gentle-acting, healing, purifying roots, herbs and barks, possessing properties that build up all parts of the system, in addition to removing all impurities and poisons from the blood. AN ENEMY OF WOMANHOOD.

The complexion, digestion and almost the complete personality of woman are dependent upon health. Woman's ills are her great enemy, as they cause bad complexion, dark circles under the eyes, headache, backache, nervousness ,sleeplessness, dragging-down pains and the blues, and often totally unfit her for a companion The great American remedy for such conditions is Lydia E Pinkham's Vegetable Compound ,which has been restoring three generations of ailing women to health, and may be relied upon with perfect confidence

When a Perfect House Paint is so easily obtained, why be careless in selecting paint for your property?

Dean & Barry's
HIGH-GRADE-PAINTS

is a Perfect House Paint, the result of 27 years' exhaustive paint study It is the BEST that science and money can produce. By BEST we mean: covers more surface; cannot peel, chalk, crack or blister when properly applied; will outwear hand mixed paint by several years; will give absolute satisfaction—that we guarantee.

The first cost may be a little more than some inferior paints Even so, you'll get far more Pure paint, paint that you may spread on and then forget it, as good old D. & B. will stay where it is put. And as the years go by it will retain its smoothness, leaving an ideal surface for repainting. Use D. & B. High-Grade Paint.

7 A DAY FOR 7 DAYS

If Your Nerves Are Shaky Because of Over-Indulgence in Tobacco or Alcohol or by Excess of Any Kind, Bio-Feren is What You Need Right Away.

Don't grow old before your time, don't let nervousness wreck your happiness or chances in life. The man with strong, steady nerves is full of vigor, energy, ambition and confidence.

You can have nerves of steel, firm step, new courage and keen mind by putting your blood and nerves in first-class shape with mighty Bio-Feren, a new discovery, inexpensive and efficient.

Men and women who get up so tired in the morning that they have to drag themselves to their daily labor will in just a few days arise with clear mind, definite purpose and loads of ambition.

All you have to do is to take two Bio-Feren tablets after each meal and one at bedtime—7 a day for 7 days—then reduce to one after each meal until all are gone.

Then if your energy and endurance haven't doubled, if your mind isn't keener and eyes brighter, if you don't feel twice as ambitious as before, any druggist anywhere will return the purchase price—gladly and freely.

Bio-Feren is without doubt the grandest remedy for nervous, rundown, weak, anaemic men and women ever offered and is not at all expensive. All druggists in this city and vicinity have a supply on hand—sell many packages.

FASCINATING TEETH

How Every Woman Can Quickly Charm Her Friends With Lovely Teeth, Clean, White and Brilliant

If you want the cleanest of white teeth and healthy gums free from disease, an easy and quick way to get both is to use a tooth paste so effective and perfect that astonishing results usually come in a week's time.

And the cost is so little. Just go to any drug or department store, and get a large tube of SENRECO TOOTH PASTE for 35 cents.

Not only will it make your teeth clean and white, but it will at once remove any filmy coating, help to check the ravages of Pyorrhea and banish acidity in the mouth.

It is used by thousands of dentists and its sale has been remarkable. When you visit your dentist, which you should do at least twice a year, ask him about SENRECO. It's a most delightful and refreshing tooth paste.

Too Fat?

A guaranteed weight reduction method; safe, pleasant. Brings slenderness, better health, happiness. Get small box of oil of korein (in capsules) at the druggist's. Follow directions. You are allowed to eat sweets, etc.; no starvation or strenuous exercising. Your life becomes worth living with clearer mind, improved figure, buoyant step, cheerfulness and optimism. Get thin and stay so. Cut out and show others this advertisement.

SOLONS URGE WIRE RETURN

WASHINGTON, June 4 - The senate interstate commerce committee today favorably reported a bill for return "at once" of the telegraph and telephone lines to their owners.

After long discussion the committee adopted an amendment by Pomerene, Ohio, providing that rate increases granted under government control shall continue between the time the bill passes and the date of its approval by the president. The companies, however, are permitted to reduce rates voluntarily. The committee also reported the resolution restoring to the interstate commerce commission its pre-war control over railroad rates.

AG AGENTS IN 63 COUNTIES

With the introduction of agricultural agents in Henry, Madison, and Muskingum-cos. there are now 63 Ohio counties in which such workers are employed. Twenty-four other Ohio counties have farm bureaus organized for the establishment of county agent work. The total membership of these 87 county farm bureaus is 50,000. The number of agents in the state, as well as the membership, has more than doubled during the past years. Many other states are reporting a similar and even a greater growth of farm bureau organizations.

WATCHING THE SCOREBOARD

Yesterday's Hero Tilly Walker. He played leapfrog with a baseball with such success that it rolled to the fence and victorious Yankee runs scored before he could retrieve it.

George Sisler, envious of Ping Bodie rapped out a pair of homers in the first game against Cleveland contributing largely to the Browns 14 to 6 victory. The Indians took the second, 8 to 5.

Everett Scott grew tired of watching the Red Sox lose and did most of the hitting himself. The Sox won 4 to 3.

The Cubs took their third straight by pounding the Pirates 1 to 0.

Ray Powell's triple in the ninth was turned into the only score of the first game between Braves and Dodgers but the latter took the second 4 to 3.

It remained for Woodward to stop the charging Giants. He gave the Phillies a 7 to 4 triumph.

LEVIATHAN IN COLLISION AT SEA WEDNESDAY

NEW YORK, June 4.—The U. S. S. Imperator, sister ship of the Leviathan, returning to Brest after her first voyage to the United States with troops, collided with the freighter Agwidale, 45 miles off Nantucket light at 2:00 o'clock this morning, according to wireless messages received by the army transport communication offices from the U. S. S. Tiger.

The Tiger, which picked up the S O. S. of the Agwidale, is proceeding to her assistance The Imperator, not seriously damaged, is continuing on her course. The collision occurred in a heavy fog. The Agwidale, of 7200 tons, a shipping board vessel was bound for New York from Rotterdam.

The Imperator left Hoboken at noon yesterday but was held up several hours by the fog.

The Agwidale is not believed to be badly damaged, it is reported, and she probably will be able to make port alone.

SCHEIDEMANN ASSAILS THE RHENISH HEAD

BASLE, June 4.—Chancellor Scheidemann, in response to Dr. Derten's telegram asking permission to elect an assembly for the new Rhenish republic and send representatives to the peace conference, began proceedings against Derten for high treason, a Berlin dispatch reported today. (Derten is president of the Rhenish republic.)

The German government also has sent a formal protest to Paris against the attitude of the allied armies of occupation toward the new republic.

NEW YORK—The conventional thirty days for drunkenness was changed by the judge to 25 so Patrick Henry could be free the first day of the big drouth.

LONDON, June 3. — A Bolsheviki official wireless from Moscow today stated that American troops are withdrawing from Archangel.

ATLANTA WIRE OPERATORS GO OUT WEDNESDAY

ATLANTA, GA., June 4.—Telegraph operators in the Atlanta Western Union office will quit work at 11.00 o'clock (central time) this morning, according to Charles F. Mann, international third vice president of the Commercial Telegraphers' union of America.

The proposed walkout is in support of striking telephone operators who left their posts Monday afternoon

International President S J Konenkamp, of the Telegraphers' union, approved the strike vote taken by the Atlanta telegraphers Other labor organizations are also said to be considering a sympathetic strike in support of the telephone girls Street railway men, who recently won a strike against the Georgia Railway and Power Company, are reported to have declared their intention of striking as a demonstration against importation of substitutes by the telephone company. Shopmen, employed in the railroad yards also threaten to quit work as a demonstration in favor of the wire workers.

SAYS MILITANT SUFFS ARE LIKE BOMB THROWERS

WASHINGTON, June 4 Militant suffragists have worked themselves into the same frame of mind as the man who put the bomb on Attorney General Palmer's porch, Senator Reed, Missouri, declared today in open senate debate on the suffrage resolution.

"They glory in law breaking and jail sentences. They have no regard for the constitution, they are not the sort of people to maintain a stable government."

Reed, the first of several antis to speak, declared congress seems determined on this and other questions to do the thing whether it's wise or unwise.

BLISSFIELD MAN ILL.

John Mullet, of Blissfield, is seriously ill at his home, suffering from a complication of diseases His step-son, Elmer Fox, of Fresno, was called to his bed-side on account of his illness.

NEW YORK Convicts in state prison had better look up the title to the penitentiary. Alex Potruch is on his way there after sales of the Brooklyn Bridge, the subway system and the news stands privilege

PARIS, June 3 — The French cabinet has decided to remove most of the prohibitions on imports, it was officially announced today.

RACINE, WIS., June 4 — Pal Moore and Jack Sharkey meet here tonight in what both believe will be a decisive contest. Ten rounds will be fought

Sharkey is confident his battle with Moore will mean another step toward Champion Peter Herman's crown, while Moore is all set to give the aspiring eastern bantam the shock of his life. Moore can't afford to lose, he says, for defeat would mean cancellation of his trip to England this month to meet Jimmy Wilde in July.

AUSTRIAN PRESS IS HORRIFIED AT THE PEACE TERMS

VIENNA, June 2—Austrian newspapers were bitter today in comment regarding the peace terms.

"The treaty is worse than our worst expectations," said the Neue Freie Presse. "It will lead to complete ruin."

"They have torn the living flesh from stupefied Austria," according to the Arbeiter Zeitung

The Neue Wiener Journal declared: "It is unacceptable."

CHICAGO REDS ARE IN PRISON

CHICAGO, June 4 A score or more "reds" and alleged anarchists were in jail here today and federal agents and chemists tested explosives and bomb making materials, the result of a series of raids by federal agents and police here last night

All men arrested were held under a blanket blotter charge to "hold for the federal government"—to be interviewed by no one. All efforts of release by friends therefore were fruitless.

Admissions were said by police to have been made by Daniel Colvin, a bookkeeper and according to authorities, a leader of Chicago anarchists that "reds" had planned to destroy the government within six months

NEW YORK—Customs officials peeking into a grocery wagon leaving a pier discovered a large quantity of silk whatyoumaycallems and everything, alleged to have been smuggled.

ALL ENGLAND CELEBRATES FIRST POST-WAR DERBY

LONDON, June 4.—Grand Parade won the historic derby, English turf classic, today. Buchan was second. Thirteen horses started.

After four years of war abstinence and unsatisfying subitutes, the historic derby, the "blue ribbon" of the English turf, was run for today and sporting Britain turned out in record-breaking crowds to participate in what is more of a national institution than a mere horse race meeting

The pre-war spirit of carnival reasserted itself, and from an early hour this morning all roads led to Epsom, the little surrey town about 14 miles out of London Every thorofare and byway leading from London, Brighton and nearby centers bore the old time "derby day" aspect and the $10,000 automobiles of the wealthy sporting and society leaders jostled the "coster's" donkey barrow and brakeloads of humbler enthusiasts. Special trains emptied masses of sporting humanity, and holiday makers, who hardly knew a horse from a donkey, at the three stations near the track and by midday the streets of Epsom were almost impassable for the vast throngs all making for the famous downs"

King George arrived just before the first race and the royal standard was hoisted on a racetrack for the first time in four years, amid tremendous enthusiasm

Popular choices were W K. Vanderbilt's French bred colt McKinley, of whom the American trainer, W. Duke, thot a lot; Major Waldorf Astor's Buchan; Lionel Robinson's gray Stefan the Great (son of the "spotted wonder," The Tetrarch); Sir Alec Black's The Panther; the French Duc Decazes' Rapidan; and Sir William Nelson's Tangier

The race was for three year olds—colts carrying 126 lbs., and fillies 121 lbs, and was run over the famous mile and a half course, which until the war had been the scene of over 120 derbys without a break. Substitute races were run at Newmarket during the war, but they never appeared like the real thing, and the last "real derby" was that of 1914, which was won by the American owner, H B Duryea's French bred Dunbar II. Today's race was worth about $30,000 to the owner of the winner, but the intrinsic value of the race is far greater, as a "derby winner" generally fetches an enormous sum, and earns undying fame, for stud purposes The 1902 winner, Ard Patrick, sold for $200,000, while C. Bower Ismay's Craganour, who was just beaten by the sensational 100 to 1 chance, Aboyeur, in 1913, fetched $250,000.

Vast sums of money changed hands over today's results, in the numerous sweepstakes, organized by practically every club in the British Empire, a "derby sweep" being a tremendous attraction to people who ordinarily would not dream of risking a cent on a horse race.

COMMUNITY COUNCIL TO MEET FRIDAY

A meeting of the Community Council will be held at the public library Friday evening at 7:30 at which time reports will be read on the results of surveys conducted along several lines by local commitzees.

Judge Milo Ely will address the meeting on "Effect of lack of recreation on delinquency."

Reports will be heard on supervised recreation, in the high school and churches; commercialized recreation, the movies, bowling allies and pool rooms; and public recreation, in the parks and playgrounds.

Unorganized recreation, under the head of general loafing, will also be touched upon.

Mrs. C. B. Smith, Sycamore-st, is temporary president of the community council, which is composed of several local men and women whose positions place them in close touch with the problem of healthful recreation for the young folks.

SUCCESS OF VILLA MUCH EXAGGERATED

LAREDO, TEX., June 4—Reports that Villistas have captured Chihuahua City were denied by Andreas Garcia, Mexican consul General at El Paso, here today.

"This report and much of the other 'reported' news from El Paso, Juarez and various points in Chihuahua are all part of a campaign of certain sensational elements of the American press to discredit the Carranza government and force American intervention in Mexico, Garcia declared.

"Villa has not more than 2000 followers in Chihuahua," Garcia said "And if he attacks Chihuahua City, as we hope he will, he'll get the surprise of his life"

Garcia conferred with General Candido Aguilar, Mexican minister of foreign relations here today. Aguilar is enroute to Washington on official business The special train that brot General Aguilar from Mexico City to Nuevo Laredo last night, was escorted by two carloads of Carranza soldiers with three machine guns mounted on the train

General Aguilar and party left today for Washington

Both officials characterized the Villa Angeles Diaz movement as a "paper rebellion" and declared the Carranza government was capable of enforcing order thruout Mexico.

MODIFICATION OF ECONOMIC TERMS ARE DISCUSSED

PARIS, June 4—President Wilson conferred today with American commissioners and experts regarding proposed modification of the economic section of the German treaty

The suggested changes were outlined authoritatively to the United Press as follows:

First: Fixing of a definite sum which Germany must pay in reparation, to be $25,000,000,000 to $30,000,000,000.

Second: Clarifying of the clause regarding powers of the reparation commission as to issuing decrees governing German international affairs.

Three: Allowing four years instead of two for payment of the first $5,000,000,000 of reparation

Four: Making provisions enabling Germany to acquire merchant shipping by lease, charter or otherwise.

All these suggested changes are in line with the policies the American delegates have pursued since the opening of the peace conference, according to reliable information. They do not represent any sacrifice of principle in the treaty it was claimed, but are among the most important details regarding which it is felt modifications may be made without affecting seriously the punishment of Germany.

JOHNSON'S

(Continued From Page One)

"The covenant according to its advocates, prevents purely domestic questions being brought before it. but by an express provision of article eleven, it is also declared to be the fundamental right of each member of the league to bring to the attention of the assembly or the council any circumstances whatever affecting international relations which threatens to disturb either the peace or the good understanding between nations, upon which peace depends

"Obviously this is enough The immigration and alien and questions have already come in that category and of course would be subject to league action That means the action not of Americans but of one American and a group of foreigners.

"But there is another provision in article 12, which binds the United States to 'submit either to arbitration or to inquiry by the council any dispute with another nation likely to lead to a rupture'"

Other amendments Johnson will offer include one to provide for a people's referendum on declaration of war elimination of article ten, an amendment to protect the Monroe doctrine and an amendment to the peace treaty to modify the Shantung settlement giving Japan control of that province.

"I have not yet been able to determine the exact form these amendments will take," said Johnson. "But I will present them when the pact is before the senate, in an effort to prevent the United States joining in the crime of despoiling China for the benefit of Japan and to safeguard American interests on the Pacific coast"

Johnson announced today that the situation in the senate where the league fight is growing hotter daily, may prevent him from making a speaking tour to California, as other league opponents have urged.

TOLEDO

(Continued From Page One)

hoods came into police headquarters all night long.

The Overland factory was closed on request of the city Thousands of strikers gathered outside the plant, jeering and in some cases chasing the 17 or 20 persons who applied at the gates for admission. Soldier-police did not make an appearance at the plant today Regular city policemen, aided by pickets from the unions involved, succeeded in keeping the crowd outside the plant moving.

Overland workers walked out a month ago, when the company announced a change from a 45 hour week to a 48 hour schedule. The machinists' union, which has recruited thousands of unskilled machine hands, took the initiative in the strike. The plant closed five days later. The factory reopened May 26, when the enlargement of the police force, thru the addition of returned soldiers, seemed to guarantee safety to workers loyal to the plant.

COLUMBUS, June 4.—Governor Cox today said that he had the Toledo strike situation under advisement and that he was keeping in constant touch with the authorities there on developments

Cox, however, would make no statement when asked what action he would take on the request of Mayor Schreiber for troops It has never been the policy of Governor Cox to send troops to settle a strike at the first request.

If the need for troops is urgent, it is thot here the governor will have to request the federal government for use of troops at Camp Sherman because at present the state has no guard organization.

HIGHLANDERS A TREAT FOR CITY

Roy D. Smith's Royal Scotch Highlanders band which will give two open air concerts in this city Monday, June 9, under the auspices of the Colonial club, is entirely a professional organization of capable artists in instrumental and vocal music. Manuel Yingling former leader of the old Coshocton band, has been a feature with the band for the past three years. Most people in Coshocton are acquainted with Mr. Yingling He is spending a short vilst with friends and relatives in Newcomerstown this week and will join the company at Newark where they play Sunday. Another of the feature soloist, Bobbie Broiller famous Scotch tenor, who has a wide reputation as a vocalist, will be with the company. Bobbie sings all Harry Lauder's Scotch airs and also many late popular songs. He is an artist who never tires of singing and also renders monologues that have made him famous.

Last year the Highlanders made a tour of 24 states playing in all the large cities. They dress in the attractive costume of the Gordon clan of Scotch Highlanders.

The Colonial club is fortunate in securing this attraction. The Highlanders are playing only a few engagements between St. Petersburg, Fla., where they finished their winter contract, and Atlantic City where they are engaged for the summer.
